My tree house

I've always wanted a tree house.

I think they're great places to play.

My dad drew the plans for a tree house

And we started to build it one day.

Dad got some boards and a tool box,

Some nails and a hammer and saw.

He said, "You'll need help with your tree house

Because you've never built one before."

We started working together.

He watched as I hammered and sawed.

He tried not to laugh very loudly

When I nailed my coat to a board.

Soon my new tree house was ready.

It looked wonderful there on the grass.

Four walls and a door and a carpet

And two windows, both with real glass.

The windows were two different sizes

And the door wasn't perfectly straight.

The walls were a little bit crooked

But Dad thought my tree house was great.

Dad got some rope and a ladder.

He pulled the house into the tree.

My tree house looks crazy and funny

But I think it is perfect for me.

- 2 Read.

- 3 Read again and answer the questions.

- 1 What did the children use to make their kite?
- 2 When do they want to fly their kite?

A poem: pattern and rhythm

When we write a poem we follow a pattern:

Last **w**eek we **m**ade a **b**ig kite. = 7

We **h**ad a **l**ot of **f**un. = 6

My **b**rother **d**rew some **g**reat plans = 7

Lost at the carnival

It was the sunniest day of the year. Harry and Emily were very excited because they were at the carnival with their mum and dad. Harry had a superhero costume with a long, red cape. Emily was dressed up as a pop star, with a sparkly dress and sunglasses.

Harry and Emily loved the parade. They waved at the floats and they looked at all the wonderful costumes and masks. They danced to music from the band. Just then, a crowd of dancers and people on stilts came down the street. The dancers moved between Harry and his family. Harry tried to push through the crowd, but the dancers moved too fast. Harry couldn't get away, so he moved down the street with the dancers.

Suddenly, Harry thought he saw a stage. He climbed onto it and looked around for his parents. But then Harry started to move. He wasn't on a stage. He was on a float with a lot of dancers on it. Harry picked up a microphone.

"Hello," he said, and his voice came through all the speakers in the street. "I'm Harry. Mum, Dad, Emily, can you hear me?"

Harry saw his mum and dad running through the crowd. "Where have you been?" they said.

"And where's Emily?"

"I don't know," said Harry. "I thought Emily was with you! ..."

Rio Carnival

Hi! My name's Bruno. I'm twelve and I'm from Rio de Janeiro in Brazil. My favourite time of year is summer. Summer in Brazil is from 22nd December to 21st March. Every summer in Rio, we celebrate the famous Rio Carnival.

The Rio Carnival is the most famous carnival in the world. It lasts for four days. The two biggest performances in the Rio Carnival are on Carnival Sunday and Monday, when the best samba schools in the city have a competition. Samba schools are dance groups and every samba school has its own dancers and musicians. The samba school competition is a fantastic show! Everyone cheers when they see the amazing costumes and floats and the brilliant dancers. The music is great, too. Everybody wants to dance when they hear Samba music!

The children's parade is on Carnival Tuesday. It's always lots of fun. Lots of children in Brazil learn how to dance the traditional samba. I go to a samba school and we're always very busy before the carnival. We write a special song and we create and practise our dance for the children's parade. We work together to build and decorate our float and we sew our costumes, too! When you go to a samba school, you learn to do lots of different things!

There are fantastic street parades at the carnival, too, with clowns, acrobats and people on stilts. My favourite street parade is called Gigantes da Lira. It takes place on the Saturday before carnival. I always go to watch it with my parents. I love the clowns and the giant puppets.

I think the carnival in Rio de Janeiro is the best celebration in the world. There are parties all over the city during carnival and it seems like the whole city is dancing! Come and dance with us!

Notting Hill Carnival

Hello. I'm Cassi and I'm eleven years old. I'm from London in the UK. I love August in London because that's when the Notting Hill Carnival takes place. Notting Hill is an area near the centre of London. The Notting Hill Carnival starts on the last Sunday in August and it lasts for two days. It's the biggest carnival in Europe and it's the second largest carnival in the world. About two million people go to the carnival every year.

Sunday is my favourite day of the carnival, because it's Children's Day. On Children's Day, you can join in with colourful costume parades, listen to live music and watch street performances. Most of the street performers on Children's Day are under 21. There are lots of special competitions for children, too. My brother and I always take part in the costume competition. We sometimes enter the dance competition, too.

My mum makes our costumes for Children's Day. My brother and I usually make masks to wear with our costumes. We always get up early on Children's Day. The carnival starts at nine o'clock in the morning, and we always want to watch the beginning. The carnival bands start playing music in the streets. Steel drums are a traditional instrument in the Caribbean. They make a beautiful sound.

You can eat delicious food at the carnival. There are food stalls with traditional Caribbean, Nigerian, Chinese and Thai food. I love Caribbean food. My favourite is grilled corn on the cob.

The streets of Notting Hill are full of people during the carnival. Everybody wants to see the colourful floats and the beautiful costumes. There are lots of different bands and DJs, so the streets are very noisy! The Notting Hill Carnival is London's biggest street party, and I think it's the best party in the world!

| 1 Whose idea was the Trojan Horse? | 2 Why did the Greeks build the Trojan Horse? |
| 3 How many Greek soldiers hid in the horse? | 4 What did the rest of the Greek army do? |

The Trojan Horse

Hundreds of years ago, Prince Paris of Troy took a beautiful Greek woman called Helen back to Troy with him. A Greek army sailed to Troy to bring Helen home. For ten long years, the Greeks surrounded the city of Troy. But the city had high, strong walls and heavy gates. No enemy could get inside.

One day, a Greek leader called Odysseus had a clever idea for entering the city. The Greeks listened to his plan and started work immediately. They used large saws to cut down trees and make long pieces of wood. They used hammers and nails to join the wood together to make a huge wooden horse. They put the horse on a large wooden platform with wheels underneath, so that the horse could move along the ground. They made a door in the horse's stomach so that thirty soldiers could hide inside the horse. The rest of the Greeks sailed their ships to an island near the city of Troy and waited.

When the Trojans saw that the Greek camps and the Greek ships were gone, they were surprised but very happy. They came out of the city and the children ran down to the water to swim and play in the sea for the first time in their lives. The Trojans believed that the Greeks were tired of the war and didn't want to fight any more. Then the Trojans saw the amazing wooden horse.

4 Discuss.

- 1 Do you think the Trojan Horse was a good idea?
- 2 Do you think the Greeks were right or wrong to use a trick to win the war?
- 3 Do you know any other stories about Ancient Greece? What happens in the stories?

At first, they thought it was a wonderful gift. They wanted to take it into the city. But one old man spoke to the crowd. "My friends, I'm sure this is a trap." The old man threw a spear at the horse. The spear stuck in the side of the horse and a strange noise came from the horse. For a moment, the Trojans were afraid and they wanted to burn the wooden horse.

But, just then, some Trojan soldiers arrived with a prisoner. The prisoner was a Greek called Sinon.

"This man can tell us the truth about the horse," said the Trojan soldiers.

"I will tell you the truth," said Sinon. "You are better friends to me than Odysseus. He left me here and now I can't get home!"

The Trojans listened to Sinon and tried to decide whether he was telling the truth or not.

"Tell us the truth about the horse," said the Trojan soldiers.

"The Greeks wanted to end this war a long time ago, and so recently they decided to sail home," said Sinon. "They wanted the gods to send them a good strong wind to blow our ships home. They built this horse and filled it with treasure to make the gods happy."

The Trojans believed Sinon and wanted the treasure that he was describing. They pulled the wooden horse into the city of Troy. The children danced around the horse and musicians began to play. It was time to celebrate the end of the war. The soldiers let Sinon go free, and he went to the beach. He lit a fire to send a signal to the Greek army on their island.

At night, the Greek soldiers quickly climbed out of the horse and down a long rope to the ground. At last, the Greeks were inside the city of Troy. They opened the gates of the city for the rest of their army to enter. Then they found the beautiful Helen and took her home to Greece.

This time, the war was truly over.

An **ECOHOME**

Martin Harris and his family live in an interesting house. It's an eco home. Eco homes don't harm the environment. They use alternative energy. They don't use fossil fuels like coal or oil, so they don't use up the planet's resources or produce dangerous gases.

The eco home is in a hill in Wales, UK. It looks like a house in a film. Half of the house is underground. Martin and his family started to build the house in March and moved in at the end of July. The house was very cheap to build. It has wooden beams and wooden floors. It has stone and mud walls and it has a skylight in the roof. There are solar panels on the roof to make electricity for the lights, CD player and computer. The family gets water from a spring and they burn wood to heat the house.

Martin and his wife, Lara, were working in a forest when they decided to build their eco home. They wanted somewhere to live while they were working and they wanted to save energy. They thought their old house in the town was boring because it was the same as everyone else's house. They wanted to live somewhere different and they liked the idea of living close to nature. Now they don't want to live anywhere else. Martin's family loves their home because it helps the planet and it looks amazing. They think that eco homes are a great idea for everyone.

Getting back to nature

Do you want to enjoy an amazing holiday and help to protect the environment at the same time? Why not book a holiday in a Getaway eco cabin in Alaska?

The cabins are beautiful buildings. Builders used wood and mud to build the walls. There are skylights in the roof so we save electricity. The small skylights give us light in the day, so we don't use electric lights. We don't use chemicals to clean the rooms because we don't want to damage the environment.

You can walk in the mountains near the cabin and see lots of local wildlife. Enjoy a boat trip on the lake and see the amazing waterfalls, or visit the beautiful caves. Years ago, people used to live in the caves. You can still see some of the cave homes today.

In the Getaway cabins, you can have a great holiday and enjoy nature. **Come and visit us soon.**

We all want to help the planet, but we want to look good, too. Now you can buy lots of great clothes and accessories and protect the environment at the same time.

Would you like some new shoes? They're colourful, fashionable and guess what! They used to be car tyres! It's easy for scientists to recycle car tyres and use the rubber to make new things.

Do you like this fun bag? It's bright and trendy, but can you guess what people made it with? Have a look ... this bag used to be old juice cartons!

This colourful T-shirt used to be plastic bottles. It takes five large plastic bottles to make one large T-shirt. You can buy baseball caps that used to be plastic bottles, too!

Guess what! These beautiful bracelets used to be old newspapers, comics and bus tickets.

Next time you are out shopping, see how many recycled items you can find. Or why not try making something new from your old rubbish? You can make greetings cards from old paper, magazines or paper bags. You can make book covers from old carrier bags, posters, maps or even clothes. You can save wrapping paper, gift boxes and ribbons and use them again.

We want to hear about your ideas, too, so we're having a competition. What can you make with your rubbish? Send us an email with a photo. We'll send a cool *As good as new* T-shirt to the ten readers with the best ideas, and we'll print your photos in our next magazine.

Reading

- 1 Look at the article and the photos. Where do you think the gorillas are?
- 2 Listen and read.  52

The Zoological Society of London (ZSL) tries to breed endangered species and prevent animals from becoming extinct. This is important work because we can learn a lot from wild animals, but when they are extinct they are gone forever.

Seven years ago, the ZSL opened Gorilla Kingdom, a wonderful gorilla enclosure at London Zoo with waterfalls, warm rocks, hills, plants and birds. Today, three gorillas live in Gorilla Kingdom.

Zaire is 39. She has been at London Zoo since 1984. She is very playful, but she is sometimes naughty too. Zaire can often be shy – it takes time for her to get to know new people, but she always makes friends in the end!

Effie is 21. She used to live in Germany, but she arrived at London Zoo in 2007. Effie loves small children and she always greets them when they come and visit.

Jookie is the youngest gorilla at London Zoo. She's only 14 years old. Jookie is very funny. She often steals Zaire's food, but Zaire doesn't mind. She thinks Jookie is wonderful.

In the wild, the main threat to gorillas is loss of habitat. The ZSL hopes that the enclosure will make the gorillas feel happy and safe. They are hoping to have a baby gorilla at Gorilla Kingdom soon. It will be the first step to increasing the gorilla population.

Save the tiger

Tigers are large, beautiful animals.

They are wild cats with orange and black stripes. Tigers live in forests. They eat meat and they hunt other animals for food.

Tigers are an endangered species. A hundred years ago, there were 100,000 tigers in the world. Today, there are only about 5,000 tigers left. They live in India, China, Indonesia, Russia and some other countries in Asia.

Sadly, there are many threats to the tiger population. People hunt tigers for their beautiful fur. Another threat to tigers is loss of habitat, because people cut down trees in the forests and the tigers have nowhere to live.

Organizations all over the world are trying to increase the tiger population. An organization called Save China's Tigers is going to take Chinese tiger cubs from zoos and teach them how to hunt. Then they are going to release the tigers into the wild.

Earth Day

What is Earth Day?

Earth Day is an international event when people all over the world think about how we can protect our planet. Earth Day takes place on 22nd April every year.

How did Earth Day start?

In 1970, US politician Gaylor Nelson decided that there should be a special day for people to think about how we can work together to take better care of our planet. The first Earth Day took place on 22nd April 1970, in the United States. Twenty million people and thousands of local schools and communities took part. Because of the success of the first Earth Day, the government of the United States decided to make new laws to protect the environment. Earth Day soon became an annual event and an international celebration.

Why do we need Earth Day?

Earth Day is important because we all share the same planet. Sometimes, we forget that we are responsible for our planet and that we should protect it for ourselves and for other people. Earth Day is a day for everyone to think about the problems our planet faces, such as climate change, endangered species, deforestation and pollution. It's a time for us to think about how we can stop these problems and make our world a cleaner, safer place for all the people and animals on Earth.

What do people do on Earth Day?

People celebrate Earth Day in many different ways. Some people hold rallies or demonstrations. They make signs with messages about protecting nature and they march in

- 2 How do you try to help the environment?
- 3 Do you celebrate Earth Day? Which activities from the article do you want to try?

the streets. Sometimes, they wear costumes to express their message in a funny way. For example, people in a rally for the protection of endangered species might dress up as endangered animals.

Some people plant trees on Earth Day. This is a great activity to do with your family, your friends or your school. You can buy some young trees and plant them in a park. Trees improve our environment by removing dust, pollutants and carbon dioxide from the air. Trees also produce oxygen and provide a home for birds, insects and small animals.

Some schools or families go on a trip to explore nature on Earth Day. Getting out in nature is a great way to learn about your planet, your local environment and the amazing plants and animals that live there.

Some towns and cities have a Car-Free Day on Earth Day. No cars are allowed to drive around the streets. People walk, cycle or use public transport. This is a great way to help the planet because cars produce a lot of dangerous gases and destroy the ozone layer which protects our planet from the sun's ultraviolet light.

Another great idea is a recycled art competition. Recycled art is becoming more and more popular, and many artists these days use recycled rubbish to make works of art. Some artists use things they find to make interesting sculptures. Others use pieces of plastic, paper, glass or metal to create beautiful pictures. Artist Jane Perkins used old buttons, toys, plastic spoons and other small pieces of rubbish to make this amazing copy of the *Mona Lisa*! Why not see what you can make with your rubbish on Earth Day?

How can we make every day Earth Day?

Earth Day is very important, but we should celebrate and take care of our planet every day. You can help to make every day Earth Day by doing a few simple things.

Don't use cars to get around. Walk or cycle to school, to the park, or to the supermarket. Tell your family and friends to walk or cycle, too. It's good for our planet and it's good for your health!

Don't drop litter. Pick up litter when you see it on the street, on the beach or in the park. Litter pollutes our planet and puts animals and birds in danger.

Recycle your rubbish! Send your rubbish to be recycled, or reuse it yourself! Think about ways to use plastic bags, cardboard boxes, glass jars and old newspapers again. Be creative!

The Earth is your planet. Take care of it!

The Elephant's Child

A long time ago, elephants did not have trunks. They had short, grey noses. There was a young elephant, the elephant's child, who was very curious. He was always asking questions. He lived in Africa, and every time he met a new animal he asked that animal a question. He asked the ostrich why her neck was so long. He asked the hippo why her eyes were red, and he asked the baboon why his face was hairy. He asked questions about everything, and he made all his friends and family very angry. They didn't like answering questions all the time.

One morning, the elephant's child asked a new question. "What does the crocodile have for dinner?" he asked. His family looked scared. "Be quiet!" they said. The elephant's child went for a walk. Soon he met a parrot. "I want to know what the crocodile has for dinner," said the elephant's child. The parrot looked at him. "Go to the river and find out," it said.

The elephant's child walked and walked. At last, he came to the river. The elephant's child did not know what a crocodile looked like. The first thing he saw was a snake. The snake was sleeping on a rock, but it opened one eye and looked at the elephant's child. "Excuse me," said the elephant's child. "Is there a crocodile near here?" "What a silly question," said the snake.

"Excuse me," said the elephant's child. "But can you tell me what the crocodile has for dinner?" The snake shook its head slowly. "That is a very dangerous question," it said. "Go home to your family." So the elephant's child said goodbye to the snake, but he did not go home. He walked along the banks of the river until he saw what he thought was a large piece of wood lying in the mud. But it was not a piece of wood. It was the crocodile. The crocodile opened one eye and winked at the elephant's child.

"Excuse me," said the elephant's child. "Is there a crocodile near here?" The crocodile opened its other eye. "I am a crocodile," it said. The elephant's child sat down in the mud next to the crocodile. "I am so pleased to meet you," he said. "I want to know what you have for dinner." "Come here," said the crocodile, "and I will whisper the answer."

3 Read again and answer the questions.

- 1 Why did the elephant's child want to find the crocodile?
- 2 What did the crocodile want for dinner?
- 3 Did the snake help the elephant's child?
- 4 Why did all the elephants go to the river?

4 Discuss.

- 1 Do you think this is really how elephants got long noses?
- 2 Have you ever seen an elephant? Where?
- 3 Have you read any other stories about animals?

The elephant's child moved closer to the crocodile and put his head next to the crocodile's mouth. But the crocodile caught the elephant's nose in its mouth. "I think I will have elephant's child for dinner today," it said.

The elephant's child was angry. "You're hurting me!" he said. He tried to pull his nose from the crocodile's mouth, but the crocodile held on tight. The crocodile pulled and the elephant's child pulled, and the elephant's nose grew longer and longer.

The snake heard the fight and came down from its rock. It wrapped its tail around the elephant's child's legs. The crocodile pulled and the elephant's child pulled and the snake pulled, and the elephant's nose grew and grew. But the elephant's child and the snake were strong, and suddenly the crocodile let go of the elephant's child and fell back into the river with a loud splash!

The elephant's child fell backwards into the mud. He thanked the snake. "My nose is the wrong shape now," he said. It was a long trunk, like the noses that all elephants have today. A fly landed on the elephant's back. The elephant's child lifted his trunk and hit the fly with it. "Your new nose is very useful," said the snake. "Try and eat something now." The elephant's child pulled up some grass with his trunk and pushed it into his mouth. "You are lucky to have a nose like that," said the snake. "Now, go home to your family."

So the elephant's child walked home. When he was hungry he pulled fruit down from a tree with his trunk and he picked grass up from the ground with his trunk. When he felt lonely, he sang through his trunk and the noise was loud and wonderful.

When the elephant's child got home, his family was very pleased to see him. "Where did you go?" they asked, "and where did you get that wonderful nose?" "The crocodile gave it to me," said the elephant's child.

So all the elephants went to the river to get new noses from the crocodile. That is why all the elephants in the world today have long, useful noses like the elephant's child.

A day in the life of a firefighter

Rob Elliot has worked as a firefighter for eight years and he loves his job. Rob's day starts at 9 a.m. Rob and the rest of his crew meet in front of the fire station to get their instructions for the day. "Every day is different," says Rob. "On some days, I drive the fire engine. On other days, I wear the breathing apparatus. I enjoy every part of my job."

Rob has rescued people from all kinds of situations. "We get called to road accidents, floods, rail and air crashes or chemical spills," says Rob.

But firefighters do more than rescue people. They give first aid, and they clean up and check sites after an accident or disaster. They often work together with the police and paramedics. They also train people in fire safety.

Today, Rob and Jenny, another firefighter, were busy checking the equipment. But suddenly, there was a call. A house was on fire and there were two people trapped in an upstairs bedroom. The firefighters jumped into the fire engines and raced to the house. Rob and Jenny ran upstairs while the rest of the team used hoses to put out the fire. Rob and Jenny found a mother and daughter in one of the bedrooms. They opened a window and helped the mother and her little girl to climb down a ladder. Soon the fire was out and everyone was safe. "And it's still only eleven o'clock!" said Rob.

The healthy eating pyramid

Healthy eating is not about being thin, or about giving up the foods you love. It's about feeling great and having more energy. If you choose the right foods, your healthy diet will be a tasty diet too.

You can still enjoy your favourite sweet and salty foods, but too much sugar and salt is bad for your body. These foods should only be occasional treats.

Dairy products like milk, cheese and yogurt are great because they contain calcium and keep our teeth and bones healthy.
Tip: Choose low-fat dairy products.

Meat, fish, eggs, beans and nuts are important, too. They keep our bodies healthy and they give us energy to work and play.
Tip: Avoid salted or sugary nuts.

Whole grains are an important part of every meal. If you eat lots of whole grains, you will have a healthy heart. Whole grains are in bread, cereal, pasta and rice.
Tip: Dark bread and brown rice are great sources of whole grains.

Fruit and vegetables are the most important part of a healthy diet. They are low in calories and full of vitamins. Eat lots of fruit and vegetables with every meal, and as snacks during the day.
Tip: Fruit and vegetables with brighter or darker colours have more vitamins.

Healthy eating is easy and fun. Just take one step at a time towards a healthier diet!

Pizza problems

If you're a terrible cook, you'll love this story! Last month, my mum bought me a recipe book. The recipes looked easy, so I decided to make pizza for dinner one evening.

I bought the ingredients and then I started to make the bread for the pizza. I mixed flour, salt and water in a bowl. I was listening to music on the radio. It was very loud, so I didn't hear my brother come into the kitchen. He shouted my name and scared me. I dropped the bowl. The flour and water went all over the table, the floor and my trousers.

Luckily, my family thought my cooking disaster was very funny. We went to a pizza restaurant for dinner. I haven't cooked again since then! If I cook again, I won't listen to music in the kitchen!

- 2 Listen and read.  80

Just breathe

The movement of your blood through your heart and around your body is called **circulation**. The **process** of circulation is fast! It takes less than a minute to **pump** blood to every part of your body.

- 1 When you **breathe** in, **oxygen** goes into your **lungs**.
- 2 **Blood** from your lungs fills with oxygen and moves into the left side of your heart.
- 3 The left side of your **heart** pumps the blood with oxygen in it out through tubes called **arteries**. Arteries carry blood away from your heart to your body.
- 4 Your body takes the oxygen out of the blood and uses it to stay healthy and strong. We need oxygen for everything we do: moving, growing, speaking and thinking. If we do not have oxygen, we cannot live.
- 5 When your body uses the oxygen from your blood, it makes **carbon dioxide**. Your body doesn't need this carbon dioxide, so the blood takes it away. Other tubes, called **veins**, carry the blood with carbon dioxide in it back to your heart.
- 6 The blood from your body goes into the right side of your heart.
- 7 The right side of your heart pumps this blood into your lungs. Your lungs remove the carbon dioxide from the blood.
- 8 When you breathe out, the carbon dioxide goes back into the air.

Remember, all this happens in about a minute, and all you have to do is **breathe!**

3 Read again and write the answers.

- 1 Is circulation slow?
- 2 Does blood from your lungs go into the right side of your heart?
- 3 Do arteries carry blood away from your heart?
- 4 Do veins carry blood back to your heart?

Young stars

Jordan Romero

Jordan Romero is from the United States. He was born on 12th July 1996. On 22nd May 2010, Jordan became the youngest person to climb to the top of Mount Everest. He was thirteen years, ten months and ten days old when he reached the top of the mountain. He climbed the mountain with his father, Paul Romero, his step-mother, Karen Lundgren, and three Sherpas (special guides) called Ang Pasang Sherpa, Lama Dawa Sherpa and Lama Karma Sherpa.

Climbing Mount Everest was part of Jordan's ambition to climb the tallest mountain on every continent. This adventure is called the *Seven Summits*. When Jordan finished this incredible task, he was fifteen years, five months and twelve days old, so he is the youngest person ever to climb all seven mountains.

Mountain	Continent	Date climbed
Mount Kilimanjaro	Africa	Apr 2006
Mount Elbrus	Europe	Jul 2007
Mount Aconcagua	South America	Dec 2007
Mount McKinley	North America	Jun 2008
Mount Carstensz Pyramid	Australia	Sep 2009
Mount Everest	Asia	May 2010
Vinson Massif	Antarctica	Dec 2011

The Seven Summits adventure took a lot of hard work, preparation and training. Jordan visited some of the most beautiful places and some of the most extreme places on Earth, including the coldest place on Earth (Antarctica). Jordan was lucky to have a great team climbing with him. His father, Paul, and his stepmother, Karen, have both got a lot of experience in mountaineering and they both love adventure. Paul knows how to help people in medical emergencies at great heights, where there isn't much oxygen. Karen is a coach and a personal trainer, so she's great at encouraging people to keep going! But Jordan didn't need a lot of encouragement to achieve his ambition. Like his dad, he loves adventure.

Now, Jordan has started a new adventure, but this time he is staying on one continent. He's going to climb the highest point in each of the US's fifty states. He calls this adventure the *Find YOUR Everest Tour*. He wants to encourage children and teenagers in the US to get outside, be fit and healthy and do things as a family. He wants young people to come and meet him when he visits each state and to join in his adventure, or find their own adventure. Jordan thinks everyone should have an ambition. You don't have to climb Everest, but it's important to set yourself a goal and try to achieve it.

3 Read again and answer the questions.

- 1 How old was Jordan when he climbed Everest?
- 2 What is the *Find YOUR Everest Tour*?
- 3 When did Samantha start wheelchair racing?
- 4 What is Samantha's next goal?

4 Discuss.

- 1 Who do you think is the bravest: Jordan or Samantha? Why?
- 2 Do you think it is important to have a goal? Why (not)?
- 3 What goals do you want to achieve?

Samantha Kinghorn

Samantha Kinghorn is sixteen years old and she's from Scotland, in the UK. In December 2010, when Samantha was fourteen years old, she was helping her dad to clear a path in the snow at her family's farm. Suddenly, a large pile of snow and ice fell from a roof and landed on Samantha. The snow and ice injured Samantha's back and she couldn't feel her legs. An ambulance took her to the nearest hospital, but Samantha's back was broken and she was not able to walk again.

Samantha spent six months in the hospital recovering from her injuries. She learned how to use a wheelchair and to get around without using her legs.

As Samantha became stronger, she discovered that she could make her wheelchair move very fast! A physiotherapist at the hospital took Samantha to Stoke Mandeville, the national centre for disability sports. Samantha tried lots of different wheelchair sports. She realized that she was very good at wheelchair racing.

Samantha started training six times a week. She soon became very fit and very fast. She won the Great Scottish Run 10 kilometre wheelchair race in September 2012. In April 2013, she entered the Mini London Marathon and finished second! She has also joined Scotland's athletics squad and will be the youngest member taking part in the Commonwealth Games in Glasgow in 2014. Her next goal is to take part in the 2016 Paralympics in Rio de Janeiro.

Samantha has achieved a lot in a very short time, and she is already becoming a national hero. Her family is very proud of her for being so strong and positive. Like Jordan Romero, Samantha thinks it is important to have dreams and goals, and she wants to show the world that being in a wheelchair can't stop you from achieving your goals.

"I want to teach people that being disabled doesn't mean that you can't do something, it just means you have to do it in a different way," she says.

Heidi was very excited. Her friend Clara was coming to visit. Clara was ill and she couldn't walk, so it wasn't easy for her to visit Heidi on the mountain. Heidi couldn't wait for her friend to arrive.

Heidi ran down the mountain to tell her friend Peter about Clara's visit. Peter looked after Grandfather's goats and Heidi liked to help him. Heidi and Peter were usually good friends, but today Peter was worried. Maybe Heidi wouldn't want to be his friend any more when her new friend arrived.

A few days later, Clara finally arrived. Heidi was playing outside when she saw two men carrying a chair up the mountain. A young girl was sitting in the chair. It was Clara. She was wrapped in shawls and she looked very pale and ill. There was an old lady on a horse behind Clara. She was Clara's grandmother. Beside Grandmother, there was a man pushing Clara's wheelchair and another man carrying Clara's luggage. Heidi and Grandfather greeted Clara and her grandmother and soon they were all chatting like old friends.

Grandfather brought the table and chairs outside so that they could eat lunch in the sunshine. Clara looked around and laughed happily. "It's so beautiful here," she said. "I want to stay here forever." Heidi was very pleased. The lunch was delicious and Clara ate a lot. Grandmother was very surprised. "You never eat a lot in Frankfurt," she said. "I am never hungry at home," said Clara. "Everything tastes better here."

"It's because of the mountain air," said Grandfather. "It makes people hungry. Perhaps Clara should stay here for a few weeks." Everyone thought this was a wonderful idea. Heidi was very excited and she couldn't stop jumping up and down.

Clara and Heidi were delighted to have lots of time together. Peter was not very friendly to Clara at first. He was still worried. But Heidi and Clara were always friendly to Peter and soon he forgot his worries. Perhaps Clara could be his new friend, too.

Heidi wanted to show Clara all her favourite places but Clara looked sad. "Oh Heidi", she said. "I want to see all the beautiful things that you wrote to me about in your letters, but I can't." "You can see everything," said Heidi. "Let's go!" and she

3 Read again and answer the questions.

used all her strength to push Clara's wheelchair all over the mountain. She showed Clara the tall, strong fir trees that grew behind the hut. She took her to the goat shed and showed her all of Peter's goats. And she took Clara to her favourite place of all, the flower meadow where beautiful red flowers danced in the grass. Clara had never seen such things or had such fun adventures before.

Grandfather prepared delicious meals, and Clara ate more every day. Soon Clara's face didn't look pale any more. "I feel so much better than I did in Frankfurt," said Clara. "I eat more and I sleep more when I am here." "It's because you are outside all the time," said Heidi. "You need fresh air to be healthy." One day, Heidi, Clara and Grandfather were getting ready to go for a walk. Heidi went to fetch Clara's wheelchair, but she couldn't see it anywhere.

"I think the wind has blown Clara's chair down the mountain," said Heidi. "What are we going to do?" "I will have to go home," said Clara sadly. "I can't move around without my chair." "Don't worry," said Grandfather. "We will think of something." Just then, Heidi saw Peter and she had an idea.

"Peter, come and help me," she said. "You can take Clara's right arm and I will take her left arm." Peter and Heidi lifted Clara and held her, but Clara was too heavy for them to carry. "Can you put your feet on the ground?" Heidi asked Clara. Clara put one foot on the ground and then the other. "It doesn't hurt!" she said.

She put one foot in front of the other again and again. "Look, Heidi!" she laughed. "I can do it! I can walk!" "Oh, Clara, this is wonderful!" said Heidi. "Now we can walk in the mountains every day and you will get healthy and strong. You will never need a wheelchair again!"

Clara practised walking every day, and when Grandmother came to visit, Clara walked down the path to meet her. Grandmother was delighted when she saw Clara looking so healthy and happy.

"The mountain is the best hospital in the world!" she said.

The Inca people lived in the Andes mountains in South America over 500 years ago. The Inca used stone to build wonderful buildings with slanted doorways, windows and roofs. Most Inca cities did not have walls around them, but they were very safe. There were large stone fortresses near each city. When there was danger, the people could hide in the fortresses.

The most famous Inca city is Machu Picchu. Machu Picchu is high in the Andes mountains in Peru. Only local people knew it was there until 1911, when Hiram Bingham, an American archaeologist, visited Peru and saw the ruins of this ancient city. When he returned to America, he wrote an article about Machu Picchu in *National Geographic* magazine. Soon the rest of the world knew about this wonderful place.

Explorers went to Machu Picchu and found palaces, fortresses and the remains of stone aqueducts. The aqueducts brought water from rivers to the city. Today, the streets and the walls of the city are like a stone maze for people to walk through. There are still some things that we don't know about Machu Picchu today. For example, no one knows why the Inca stopped living there. Some people think there was an illness that made the Inca run away from the city. It is difficult to find out if they are right because there are no records to tell us. The Inca didn't write, but they were excellent builders.

It has been nearly 100 years since the rest of the world first heard about Machu Picchu. Today, Machu Picchu is Peru's most famous tourist attraction. If you travel to Peru, you should definitely visit the amazing lost city of the Inca.

A visit to the Colosseum by Ben Sanders

Have you ever wondered what life was like in ancient Rome? A visit to the Colosseum is a wonderful way to find out something about life in Roman times.

I visited the Colosseum on a cold morning last February. I could smell fresh bread from the bakeries as I walked through the noisy streets. Suddenly, I saw the Colosseum in front of me.

Sadly, the Colosseum is in ruins now. The stone seats have gone and the floor has gone, too. But I imagined excited Romans sitting in the seats and watching a fantastic show. I explored the rooms under the Colosseum where the Romans kept things for the shows. I felt scared, because the rooms were small and dark.

As I was leaving, I saw a man wearing a Roman costume. "Come back soon," he said. I hope I will visit the Colosseum again soon. It's an amazing place.

Nim's Island is a great film. It's directed by Jennifer Flackett and Mark Levin. The main character in the film is an eleven-year-old girl called Nim. Nim is played by Abbie Breslin, who is only a teenager but already a famous actress. The film is based on the novel *Nim's Island* by Wendy Orr.

Nim lives on an island in the South Pacific. She has some cute animal friends, including Selkie the sea lion, Fred the lizard and Galileo the pelican. Nim is a very confident girl. She can find food, climb trees and build fires. Nim doesn't have a mother. She lives with her father, Jack Rusoe. He is played by Gerrard Butler. Jack is a scientist and he studies tiny sea creatures. One day, Jack goes on a trip on his boat. He wants to take Nim with him, but Nim wants to stay at home on the island. Jack agrees and he sets off on his trip.

Soon after Jack leaves, an email arrives for him. The email is from Nim's favourite author, Alex (Alexandra) Rover. Alex is played by Jodi Foster.

Alex wants to ask Jack about his work. Nim replies to Alex, and they become email friends.

While Jack is at sea, there is a terrible storm. Jack's boat breaks and he can't contact Nim. Nim is very worried. There are lots of tourists arriving on the island and they are making a mess. She wants Jack to come home, but she doesn't know where he is. Nim asks Alex to help. Alex comes to the island and helps Nim to make all the tourists leave. At last, Jack comes home, and he becomes friends with Alex, too.

The special effects in *Nim's Island* are very good. There is an amazing storm and a scary volcanic eruption. Jennifer Flackett and Mark Levin are great directors, and the actors' performances are brilliant. The film is funny and exciting. It's a comedy, fantasy and adventure film all in one.

Famous people in the news by Tom Adams

Celebrities are always in our newspapers and magazines. They are not always happy when stories about them are reported in the news. But I believe that the public should know about famous people's lives.

Firstly, celebrities want to be famous. It seems to me that celebrities should be pleased when their photo is printed in newspapers or magazines, because it means that people are reading about them.

Also, people spend a lot of money on tickets to watch concerts, films and sports events, or on CDs and DVDs, so they want to know about the celebrities' lives and personalities.

On the other hand, reporters and photographers sometimes make life difficult for famous people. They wait outside celebrities' houses and they often follow them. In my opinion, this is a problem.

In conclusion, I think reporters should write about celebrities, but they shouldn't make life difficult for famous people. After all, celebrities are people, too.

How China changed the world

China has a rich and fascinating history. From ancient times, Chinese engineers and inventors have made amazing inventions and discoveries. The Ancient Chinese often invented or knew about things long before the rest of the world, but eventually their ideas reached other countries and changed the world. Many of the things that we use today originally came from Ancient China. These are some of China's most important inventions:

Paper

The Chinese invented paper in the 2nd century BC. That's over two thousand years ago! Three hundred years later, in 105 AD, the Chinese invented a way to manufacture paper, so they could make lots of paper to write on. At this time, people in the rest of the world were writing on clay or animal skins. The Chinese used their paper to make paper money and playing cards.

Printing

Hundreds of years before Gutenberg invented his printing press in Europe, the Chinese invented a printing press and printed newspapers and books. The first printed newspapers were sold in Beijing in 700 AD, and the first printed book with pictures was printed in China in 868 AD. In 1155 AD, the first printed map

was produced in China. Thanks to these inventions, books changed the world by improving education and making information available to everyone.

The Compass

When the Chinese invented the compass between the 2nd century BC and the 1st century AD, they used it to choose the best places to build their homes. The Ancient Chinese believed that their homes should face north, so they used the compass to find the correct direction. Later, the compass was used for travelling on land and sea. The compass made some of history's most famous journeys possible.

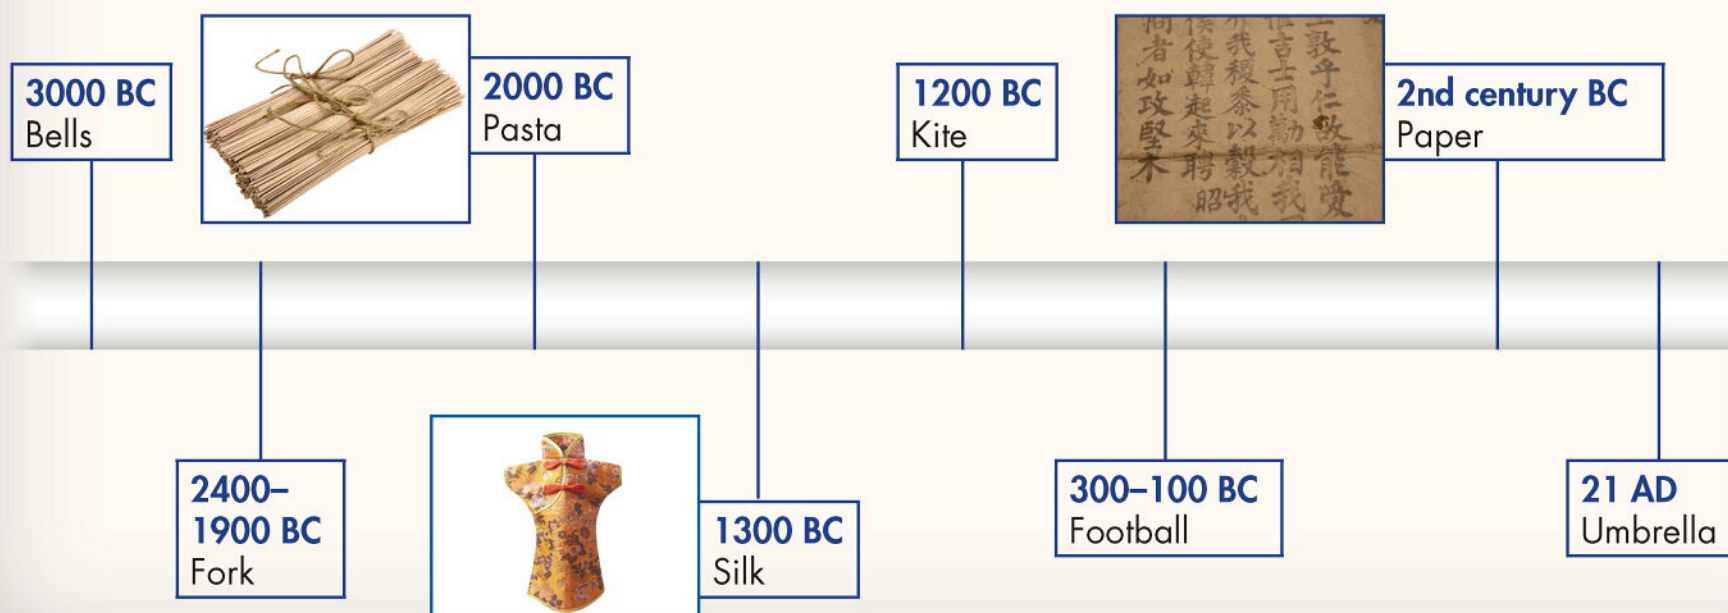

Silk

The Ancient Chinese were the first people to make silk. Silk thread is made by silkworms. The Chinese collected the thread and used it to make a soft, light material. Wealthy people in Europe wanted silk to make their clothes, so a lot of people bought silk from the Chinese. The route from Europe to China was called the Silk Road. For hundreds of years, the Chinese didn't tell anyone how to make silk. It was a wonderful secret.

The Kite

There are many stories about how the kite was invented. Some people believe that a Chinese farmer tied a string to his hat to stop it from blowing away, and his hat became the first kite. Other stories say that Chinese soldiers used kites to send

3 Read again and answer the questions.

- 1 What did the Chinese make with paper?
- 2 How did books change the world?
- 3 How did fireworks help the Ancient Chinese armies?
- 4 Why was the kite an important invention?

- 1 Which of the inventions in the text do you use?
- 2 Which invention do you think was the most important? Why?
- 3 What do you want to invent? What is your invention for? How can your invention change the world?

messages to each other or to warn each other when danger was coming. The first written report of someone using a kite is from about 200 BC, when Chinese army leader Han Hsin flew a kite over the wall around a city to measure how far his army needed to dig underground to make a tunnel into the city! One thing is certain: the kite gave inventors the idea for the plane, so it was a very important invention in the world's history.

Fireworks

Fireworks may not seem like an invention that changed the world. However, the main ingredient in fireworks is gunpowder, and gunpowder certainly changed the world.

The first fireworks were invented by the Ancient Chinese. The invention might have been an accident, but firework displays soon became very popular. Until

the 12th century, the Chinese only used gunpowder for entertainment. But in 1161, they used explosives to make weapons for the first time. Cannons and guns were also invented by the Chinese. At first, exploding weapons gave the Chinese a great power. They were able to protect themselves from their enemies. But people began to buy gunpowder and guns and take them back to Europe. Soon everyone had these powerful weapons and the world changed forever.

Pasta

When we think of spaghetti, we think of Italy. But in fact the Chinese invented pasta and made it into long, thin strips called noodles. The Chinese were eating pasta for four thousand years before European explorers took the idea back to Europe.

Ancient Chinese inventions are part of our everyday lives, whether we realize it or not. When you use an umbrella, you are using a Chinese invention. The Chinese made the first umbrellas to protect themselves from the sun and rain. When you use a match to light a fire, you are using another great idea from Ancient China. The Ancient Chinese invented wheelbarrows, bells, hot air balloons, forks, toothbrushes, football, dominoes, fishing reels and restaurant menus. Can you imagine a world without any of these things?

My name is Jim Hawkins. When I was a boy, my father had a small hotel in England, near the sea. One day, an old sailor arrived at the hotel. He said his name was Billy Bones. He went to the beach every day and he looked out at the sea. Billy had a wooden box in his room. Nobody knew what was inside it.

After a few months, Billy Bones became very ill. When I visited Billy, he pointed at his wooden box. "There is treasure in that box," he said. "If you help me, I will share the treasure with you." But that night, Billy Bones died. I was very sad. I decided to open the wooden box. Inside, I found some papers wrapped in a cloth. I took the papers to Doctor Livesey's house. Doctor Livesey was having dinner with the Squire. They unwrapped the papers and looked at them carefully.

"This is a list of treasure and a map!" said the Squire. "The treasure is on an island. We must get a ship and go to find it." So the Squire found a ship. He also met a ship's cook called Long John Silver who only had one leg. Long John Silver told me wonderful stories about the sea and about his adventures. I liked talking to him, but I didn't like his pet parrot. It was always shouting.

Soon we were ready to leave. I said goodbye to my parents and we sailed away to look for treasure. One day, I was tired and hungry. I wanted to rest for a few minutes, but I soon fell asleep. When I woke up, I heard men talking. They didn't see me. One of the men was Long John Silver. "When we find the treasure and get it onto the ship, we'll steal the ship from Jim and his friends," he said. The other men agreed. "We'll leave Jim and his men on the island and we'll all be rich!" they said.

Suddenly, there was a shout. We were near Treasure Island. I found Doctor Livesey and the Squire and I told them about Long John Silver's terrible plan.

3 Read again and answer the questions.

- 1 What did Jim find in Billy Bones's box?
- 2 Who found the treasure?
- 3 Where did Long John Silver run away?
- 4 What does Jim sometimes hear in his dreams?

4 Discuss.

- 1 Did you enjoy the story? Why (not)?
- 2 Do you think Jim was brave? Why (not)?
- 3 Do you think Long John Silver is a bad man? Why (not)?

When we arrived at Treasure Island, we all left the ship and went to explore the island. We found a wooden house and we stayed there for the night. When I woke up the next morning my friends were gone! I was very scared. But when the other men left the house, Long John Silver told me his new plan.

"I'm not going to steal the ship or the treasure," he said. "I'm going to help you and your friends. But the other men think I am going to share the treasure with them. We mustn't tell them our secret."

That afternoon, we went to look for the treasure. But when we found the right place, we saw a large hole in the ground. The treasure was gone! The men were very angry with Long John Silver. "You tricked us!" they said. But then my friends jumped out from behind the trees.

"The treasure is safe," said Doctor Livesey. "We found it last night. We're taking it back to England and Long John Silver is going to come with us. The rest of you must stay here, on Treasure Island."

I was glad to sail away from Treasure Island. We stopped in South America and Long John Silver ran away. He took some of the treasure with him and we never saw him again. When we arrived home, we shared the treasure and lived happily. But sometimes in my dreams I still hear Long John Silver's parrot shouting.

My mum wants to go to New York, which is the biggest city in the USA. It's a really exciting place with lots of theatres, museums and sights. If we went to New York, we'd definitely go up the Empire State Building. It's the tallest building in New York. We'd visit the Statue of Liberty too. The statue was given to the USA by France in 1886.

My sister wants to go to San Francisco, which is a very hilly city! It's built on about 50 hills. If we visited San Francisco, we'd ride in the famous cable cars and we'd definitely visit the Golden Gate Bridge. We'd have a meal in Chinatown, too. I love Chinese food!

My dad wants to visit Washington DC, which is the capital city of the USA. It's a beautiful city with lots of parks, museums and famous monuments. If we went to Washington DC, we'd definitely visit the White House. It's the home of the President of the USA.

Factfile

The USA has more big cities than nearly any other country in the world. Over 700 of its cities have a population of over 50,000 people.

Hello. I'm Toby. Last week, my class went on a school trip to the London Science Museum. There were lots of different exhibits, but my favourite part was the *Who Am I?* gallery. It's all about what makes us the way we are. You can find out all about yourself by looking at different objects and pictures and by doing interesting activities.

We learnt about the human brain and about DNA. DNA is the code in our bodies that makes us who we are. I used a computer program to see myself as an old man. It was very strange! My friend John used a special microphone to hear himself speak with a girl's voice. That was very funny! The Science Museum is a wonderful place for a school trip.

Hi! My name's Mark. Last week, my class went on a school trip to London Zoo. There are over 650 different species of animal at London Zoo, so there was lots to see there! The gorillas in Gorilla Kingdom were amazing. Keshno, a male gorilla, was cleaning himself. Jookie, a female gorilla, was very funny. She made herself a hat from an old sack!

In the Tiger Territory exhibit, we saw a tiger catch itself some dinner. Tigers like to feed themselves, so the zookeepers put meat on tall poles for the tigers to climb. My favourite part of the day was the penguin show. The penguins played in their huge pool while the zookeeper fed them fish. The penguins really enjoyed themselves and we enjoyed ourselves, too! London Zoo is great!
